Published Reports

CENTRAL PATTANA (CPN TB) - Another solid year despite slow rise; Maintain BUY TP THB83.00

Revise up our projections to reflect solid residential backlog

We revise up our net profit forecasts for CPN by 0.3%/3.3%/5.4% in 2024-26, respectively, mainly from the change in our revenue assumption for residential property from the previous THB3.3b each year to THB5b+ each year during 2024-26. At end-2023, CPN had a residential backlog of THB4.3b, 75% of which will be transferred in 2024, with the balance being transferred in 2025. The company gave guidance of 20% revenue growth for residential property in 2024, meaning it will have to add around THB3.7b with its low-rise projects.

High residential revenue in 2023 likely to continue in 2024

CPN plans to develop ten residential projects (seven condos and three low-rise) in 2024 worth THB12b-13b, as compared with five new launches in 2023. We assume the company will deliver THB5.8b in revenue from the residential business unit in 2024 (-1% from peak revenue in 2023) and THB5b in revenue per year in 2025-26. Three low-rise projects under the "BAAN NIRADA" brand launched in 2024 with the aim of penetrating the luxury market with starting prices of THB25m-30m. Despite another challenging year for the housing market, the strengths of CPN's residential projects are high quality, good community, good locations adjacent to Central shopping centers, and reasonable prices.

Two shopping malls set to open in 1Q24

CPN opened Central Nakhon Sawan on 31 January 2024. The company will open Central Nakhon Pathom in March. The total leasable area (NLA) in 2024 will increase by 2.4%, reaching 2.3m sqm. In 2025, Central Krabi and Dusit Central Park retail will open. We expect the revenue from rental and services to grow moderately by 7%/8%/7% in 2024-26, contributing 82-85% of total revenue, down from 90% in past years. We estimate its rental and service gross margin to dip in 2024 on higher depreciation costs from the new malls, then rise in 2025 onwards.

Maintain BUY with a new TP of THB83

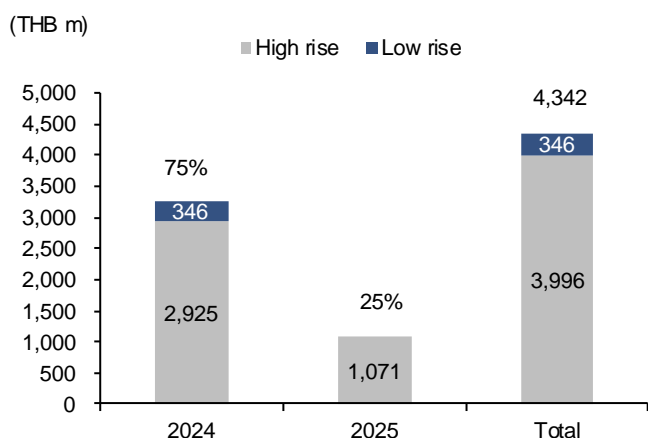

Following our earnings revisions, we now forecast core profit growth of 7%/8%/6% or 7.2% CAGR during 2024-26. We reiterate our BUY call with a new TP of THB83 (DCF, 7.4% WACC, 3% LTG), implying only 23.5x 2024E P/E.

BANGKOK DUSIT MEDICAL SERVICES (BDMS TB) - Bright short- and long-term outlook; Maintain BUY TP THB35.00

Short term: potential for record high revenue in 1Q24

BDMS reported an impressive record high core profit of THB4.0b in 4Q23 (+27% y-y, +2% q-q). At the analyst meeting today, management guided that momentum should continue in 1Q24. Revenue grew by 11% y-y during Jan to 21 Feb-24, driven by both Thai and international patient revenue (+16% y-y and +15% y-y, respectively, in Jan-24). Thus, we see the potential for revenue and core profit to hit another record high in 1Q24.

Mid-term: expect revenue to grow by 10-12% in 2024

Management has a promising view in 2024, targeting revenue growth of 10-12% for the year with an EBITDA margin of 24-25% (vs 24.2% in 2023). The key driver is the strong international patient revenue trend. Revenue from Middle East patients (4% of revenue contribution) grew by 43% in 2023, driven by patients from Qatar (+85%), and grew by 20% y-y in Jan-24. Revenue from Chinese patients is also trending positively, growing by 45% in 2023 and 43% y-y in Jan-24, with a positive outlook from the visa-free travel policy. Overall, we forecast 2024 revenue to grow 10% (+15% international and +8% Thai), with an EBITDA margin of 24.7%. This would lead 2024 core profit to grow by 14% to THB16.4b.

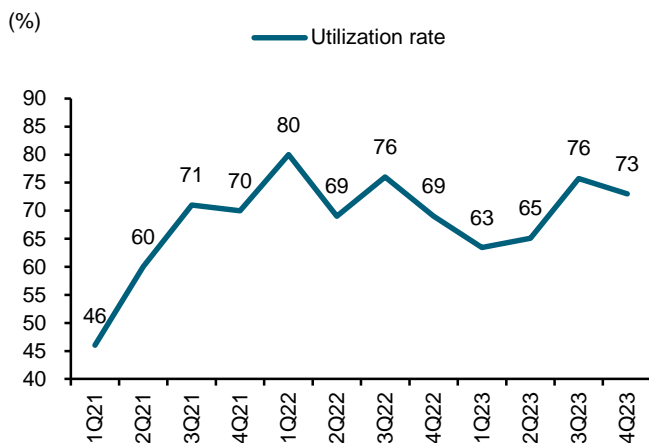

Long term: expect revenue to grow 10% CAGR over 2024-26E

BDMS also provided 3-year targets (2024-26). The company expects revenue to grow by 10% CAGR. Bed capacity should increase by 11% from 8,600 in 2023 to 9,300 in 2026. The utilization rate should also increase from 69% in 2023 to 75% in 2026. Aside from the strong international patient outlook, revenue from insurance patients is expected to increase to 40% of total revenue by 2026 from 36% in 2023. Lastly, BDMS expects Social Security Office registered members to increase from 800k in 2023 to 900k in 2024, and exceed 1.0m by 2025.

Revising up core profit; trades at an attractive valuation

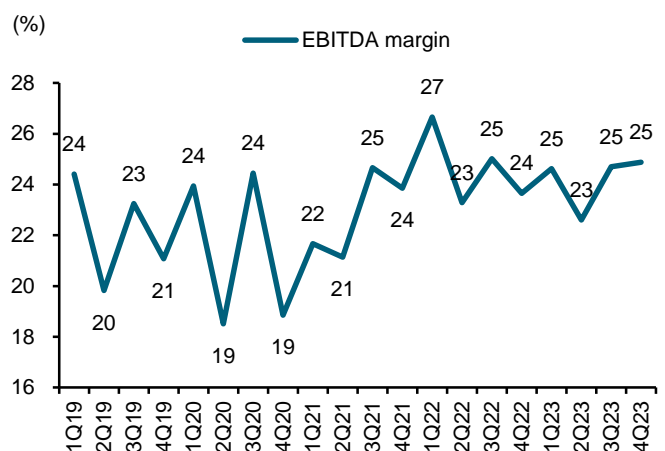

We revise up 2024-25E core profit by 5% to reflect the better outlook. We maintain our 2024 DCF-TP of THB35.0/shr, as we have factored in higher capex in 2024 which management targets at 8-10% of total revenue following the expansion projects. BDMS is trading at an attractive valuation of 27x 2024E P/E, lower than its five-year average of 31x.

BUMRUNGRAD HOSPITAL (BH TB) - Healthy growth to resume post Ramadan; Maintain BUY TP THB305.00

Revenue from Myanmar and Kuwait patients slowed in 4Q23

BH reported strong 4Q23 earnings, which grew by 9% y-y to THB1.7b. However, earnings dropped by 13% q-q, mainly due to an additional incentive relating to employee expenses worth THB250m and a slowdown in revenue from Myanmar following the political tensions. In addition, revenue from Kuwait patients also declined, as the Kuwait government recalibrated and cut the payment guarantee for its citizens to seek treatments overseas. Currently, treatments in Thailand are not on the list for Kuwait citizens. However, management expects Thailand to be on the list after the Ramadan period.

Greater impact from Ramadan in 1Q24 compared to 1Q23

BH targets single-digit revenue growth y-y in 1Q24, pressured by a larger impact from Ramadan in 1Q24 compared to 1Q23 (Ramadan is from 10 Mar to 9 Apr in 2024 vs 22 Mar to 21 Apr in 2023). However, we expect strong y-y growth in 2Q24 due to a smaller impact from Ramadan, while the situation with the Kuwait government is likely to improve.

Expect strong international patient revenue growth in 2024

We expect 2024 revenue to grow by 7% y-y (+4% for Thai patient revenue and +9% for international patient revenue). Key growth drivers, in our view, are 1) a larger capacity from an average of 472 beds in 2023 to 519 beds in 2024; 2) more referral offices, from 83 in 2023 to 125 in 2024, focusing on China, Ethiopia, Australia and Saudi Arabia; and 3) a price adjustment by 4% in Jan-24 and 2% in July-24, leading to an effective price increase by 6% in 2024. We estimate the EBITDA margin to increase from 37.5% in 2023 to 38.0% in 2024, premised on higher revenue intensity. Thus, core profit should grow by 7% y-y to THB7.4b.

Revising up core profit; weak share price is a buying opportunity

We revise up our 2024-25 core profit assumptions by 4-5% to reflect the strong 2023 results, and derive a new 2024 DCF-TP of THB305/shr. BH trades at an attractive valuation of 24x 2024E P/E (vs 5-yr avg of 30x). The share price has fallen by 6% over the past month, which we see as a buying opportunity. In our view, the slow core profit growth in 4Q23 is seasonal, while the impact of Ramadan is temporary. We expect to see strong growth resume post Ramadan.

HANA MICROELECTRONICS (HANA TB) - Bet on a recovery in 2H24; Maintain BUY TP THB50.00

1H24 demand and purchase orders remain dull

We have a neutral view of the analyst meeting on March 5, 2024. The overall tone is in line. Management guided that 1Q24-2Q24 purchase orders would not recover due to IC and SiC mainly from weak Chinese demand. Although Gartner forecasted global semiconductor sales in 2024 would resume growth of 17% y-y, it would get support mainly from AI-related products. Since HANA does not have any product in this segment, it may not grow in line with the industry outlook. Despite that, we anticipate an indirect positive impact from smartphone sales, which started to recover in 4Q23. Also, we expect continued growth in 2024 due to an AI system upgrade in smartphones, even though HANA does not know if customers use its products for production in the AI segment.

Expect a recovery in 2H24, especially SiC

Management anticipates a recovery in 2H24 due to IC PCBA and SiC (under PMS in South Korea) after a completed installation of machinery. It can help support more SiC revenue since PMS currently generates 85% of its revenue from Si. In 2024, the focus is still on Solar, Data centers, and EV charging stations, while HANA is qualifying on-board EVs. If successful, HANA will begin to realize them in 2025. Management targets PMS to achieve EBITDA breakeven by the end of 2024 or early 2025. Meanwhile, the write-off of SiC inventory of THB262m in 4Q23 should be a one-time event. Also, it should not reoccur after machinery improvement.

1Q24 should be the trough of this year

In the short term, we expect a q-q profit recovery in 1Q24 due to an absence of extra items. Also, it would get support from Baht weakness. As a result, the gross margin should recover q-q and y-y. The profit recovery should continue in 2Q24. Besides, the earnings should resume its normalized quarterly level of THB600-700m in 2H24. However, given a slower-than-expected 1H24 recovery outlook, we have decreased our 2024-26E net profit by 5-10%. Despite such cuts, our 2024E core profit still implies a growth of 9% y-y.

Slash TP to THB50 but retain a BUY call to bet on a 2H24 recovery

Similarly, we have cut our TP to THB50 from THB60 after we decreased our PE target to 20x from 23x to reflect a lower-than-expected profit growth. However, share price plunges of 33% YTD has factored in the disappointing 4Q23 profit and a slow recovery. Hence, we retain our BUY rating on HANA.

Key takeaways from Analyst Meeting

Key takeaways from Finansia's EV ecosystem event

We hosted an event on 5-Mar-24 by the name "Navigating the EV ecosystem: Opportunities and challenges" which could be broken down into two sessions with key event highlights of each part as following.

Session 1: Hire-purchase lenders

Speaker: Mr. Sarun Thongtammachart, Chairman of Thai Hire-purchase association (THPA)

The morning session of the event was EV ecosystem in the point of view of HP lenders. The speaker gave an overview around the landscape of Thailand's Auto- and HP-auto industry. Despite a record high car sales volume from Motor Expo events during the year, the overall auto sales was 775k units, short of the target set by THPA of 800k-850k units largely due to a slowing economic environment and pressure from high household debt level, which resulted in signs of overall worsening asset quality of debtors encountered by financial institutions (FI).

Overview of Thai HP auto lenders

However, the speaker shared a view on the Thai auto HP market that remained highly competitive backdrop amid the current economic trends, which reflected in stable movement of HP yields of average lenders despite spikes in companies' cost of funds during the year. However, HP operators, instead, made an upward adjustments on down payment as a measure to cope with asset quality pressure. The trend resulted in an increasing banks' rejection rate on both new and used cars from an average of c10-20% before 2023 to c15-50%.

Fast growing EV adoption in 2023 but remained a minor portion

For electric vehicles (EV), the speaker illustrated that the total sales of the segment in 2023 was c70k units, retaining a high growth rate from 2022 but remain a minor portion of Thailand's auto market. As the domestic structure of EV market has just entered an initial phase of adoption, Thailand's used EV market is currently not fully established as there is insufficient empirical data for price evaluation of used EV. The trend resulted in a greater gap between new and used EV prices of c50% as compared to traditional internal combustion engine (ICE) c20-30%. The chairman expects the EV industry to exhibit high growth rate, going forward, but could only gradually increase its contribution in the domestic auto market as it continue to foresee the necessity of ICEs.

Industry prospect view and targets in 2024

For 2024, the speaker sees a backdrop of the economic pressure to remain stable from 2023 or to even slightly improve over key catalyst from 1) tourism spending, 2) recovery of the global economy and export volume, and 3) improvement in government spending. Meanwhile, there is trend of higher car production target on the side of manufacturers, leading THPA to also target for 2024 cars sales of 850k units, implying an expected growth rate of c9.5% y-y. For EVs, THPA targets sales of 100k units in 2024, representing a higher-than-industry growth rate of c30% y-y.

Session 2: Non-life insurance

Speaker: Mr. Wasit Lamsam Senior Vice President of Muang Thai Insurance (MTI)

The afternoon half of the event was a discussion on the industry trends from a prospective of non-life insurance company, namely Muang Thai Insurance PCL.

Soft industry overview in 2023

The speaker gave an overview of Thai non-life insurance in 2023 was achieved only a moderate growth of 3.5% y-y in insurance premium. Throughout the year, companies was affected by a stricter lending policy of FIs as a measure to cope a worsening asset quality.

After COVID, the overview of motor-related insurance industry turned increasingly more competitive which was a result of lower degree of household purchasing power and a lower unit of new cars each year. Moreover, the emergence of Battery-pure Electric vehicles (BEV) in Thailand also played a part in suppressing the industry's moderate premium growth, leading some insurance players to start tapping into BEV insurance segment. Meanwhile, as an attempt to gain market share, pricing strategy was used, especially among medium-sized operators, which the speaker expressed concerns over a trend of mismatched risk-reward strategies of operators.

New OIC regulations in BEV insurance

As BEV insurance represents a new and fast-growing industry, the OIC decides approach regulations in a gradual and careful manner largely of its current short-dated empirical observation, while maintenance of BEVs currently adheres to services provided by car dealers and service centers, leading to a immature structure of used BEV market and high volatility in car prices.

On 12-Dec-23, the Office of Insurance Commission (OIC) announce a regulation on companies' practice for conducting BEV insurance business. Regarding the matter, the speaker highlighted a conduct to specify name of drivers onto insurance contract which allows up to 5 individuals (compared to traditional auto insurance with no driver specification), leading calculations for premium of each customer to vary, depending on their statistics, benefitting both parties of insurance contract. The speaker expects the conduct to also extend to traditional auto insurance in the near future, leading to a paradigm shift on the whole industry.

According to foreign data and historical observation in Thailand, the average cost of claims of EV insurance is roughly c16% higher than the ICE counterpart, while the frequency of claims do not exhibit a meaningful difference, the value per claim of EVs is significantly higher due to higher cost of technicians and replacement parts, especially battery and the overall electric system. EV insurance coverage mostly similar to of those for ICEs, but with two major distinctions including 1) software failure and cyber breach which are not covered but contract.

Bright prospects for BEV ecosystem with certain key transformation required

However, the speaker shared a prospect view that there is an increasing number of domestically produced BEV parts manufacturers, which resulting in a less costly price of BEV replacement parts, going forward. As of 2023, out of cTHB10b of Thailand automobile insurance premium, there was c1-2% proportion of BEVs. The speaker expects that within the next three years, the figure has the potential to grow beyond 10% along with a fast-growing demand and adoption of BEV in parallel within its related up-stream supply chains i.e., leasing, used BEV market.

Economic news

- [Inflation drops for fifth month in a row in February](#) BANGKOK POST: Headline inflation in February decreased by 0.77% year-on-year, the fifth consecutive month of declines, attributed to lower prices of fresh food, especially meat and fresh vegetables, as well as government subsidies for electricity and fuel. Core inflation, which excludes fresh food and energy, rose 0.43% year-on-year, sliding from 0.52% in January.
- [Agro-industrial sector encouraged to diversify markets](#) BANGKOK POST: Agricultural businesses are recommended to diversify export markets, reduce risk and increase the value of food products and processing, as a Commerce Ministry study found the majority of export-oriented agricultural products are commodities or those with only basic processing. According to Deputy Commerce Minister Napintorn Srisunpang, overall exports amounted to US\$285 billion in 2023, with agricultural and agro-industrial products accounting for 17.3% of the total, industrial exports making up 78.6%, and mineral and fuel products accounting for the rest.

Corporate news

- [Sena strategies aim to shift unsold condos](#) BANGKOK POST: SET-listed developer Sena Development is planning to implement new strategies to rent out and transfer completed unsold condos, coping with a high mortgage rejection rate in an effort to increase sales and revenue this year. Kessara Thanyalakpark, managing director, said the new strategies will start this month, including renting out units to potential buyers who will eventually receive unit transfers, as well as another tactic for people initially interested in renting.
- [NBTC, AIS present disaster warning system](#) BANGKOK POST: The National Broadcasting and Telecommunications Commission (NBTC) and Advanced Info Service (AIS) jointly launched a trial on Tuesday of the country's first cell broadcast service (CBS) system in the form of an emergency alert system for mobile phones. A demonstration of the system took place at NBTC headquarters on Phahon Yothin Road which paves the way for its eventual connection to the government's planned central command centre to serve as a channel for swift and efficient disaster warnings, according to the NBTC.
- [Local bourses extend trading hours](#) BANGKOK POST: The Stock Exchange of Thailand (SET) and Market for Alternative Investment (MAI) are extending their daily trading hours from March 25, opening the afternoon session 30 minutes earlier, allowing trade on the two bourses for five hours per day. The change better aligns the SET's trading hours with other regional markets and offers investors more trading opportunities, the bourse said in a statement. After the adjustment, the SET and MAI offer a pre-open afternoon session from 1.30-2pm and an afternoon session from 2-4.30pm. Morning trading hours remain unchanged, running from 10am-12.30pm, with a half-hour pre-open session from 9.30-10am.
- [Virtual bank licensing criteria set](#) BANGKOK POST: The Finance Ministry has announced the criteria to apply for a virtual bank licence, with initial registered capital set at 5 billion baht. According to Paopoom Rojanasakul, secretary to the finance minister, on March 4 the Royal Gazette published the criteria, requiring virtual banks to establish a headquarters in Thailand with initial registered capital of at least 5 billion baht in the first phase and 10 billion in the second phase.
- [Ttb rules out sale of bad debts](#) BANGKOK POST: Despite a higher level of non-performing loans (NPLs) in the industry, TMBThanachart Bank (ttb) has no plans to sell its bad debts this year as potential buyers are offering relatively low prices. Given the increase in NPL supply across the banking industry as the economy slowly recovers, auction prices of bad debts offered by asset management companies (AMCs) have declined from last year.
