Published Reports

KASIKORNBANK (KBANK TB) - Good profit growth from lower credit cost; Maintain BUY TP THB186.00

Expect credit cost at 168bp in 2025

We expect KBANK to post net profit growth of 6.1% y-y in 2025, which is the highest level among Thai banks under our coverage (industry growth of 4.5%). This would be supported by a lower credit cost y-y to 168bp in 2025E from 189-211bp in 2022-24 after the active balance sheet cleanup strategy. Note that our credit cost forecast of 168bp in 2025 is conservative compared to KBANK's credit cost target of 140-160bp. Sensitivity-wise, every 10bp decrease in KBANK's credit cost would translate into higher 2025E net profit by 4.9%, all else being equal.

Credit cost to lower y-y after active NPL outflow

After the 'Active Balance Sheet Cleanup' for KBANK during 2022-24, we expect KBANK's NPL ratio and credit cost to be more benign in 2025-27 to 159-168bp from 189-211bp in 2022-24. Since 2022, JK Asset Management Company or JK AMC has played a major role to absorb NPL sales from KBANK, totaling THB131b, THB92.5b and THB52.3b for 2022/23/24, respectively. We believe the results of KBANK's active balance sheet cleanup during 2022-24 are a gradually lower trend of NPL formation in the past eight quarters and a lower NPL ratio, especially in the SME segment.

Raising dividend payout ratio to 46% is supportive

We see the higher dividend payout ratio to 46% in 2024 (from 36% in 2023) as a supportive factor for KBANK's capital management, DPS, and ROE generation. Moreover, we believe the 46% dividend payout ratio for KBANK could be sustained for 2025-27, thanks to the high CET1 and CAR ratios compared to peers. KBANK set its CET1 target of 13% to 15% for both consolidated vs 17.3% at the consolidated level currently. The current CET1 level for KBANK is sufficient with a margin of uncertainty, we believe.

Fine-tuned forecast; maintain top BUY with new TP of THB186

We have fine-tuned our 2025-26 forecast on the back of lower NIM and mute loan growth forecasts, offset by higher non-NII (asset management) and lower credit costs. After our earnings revisions, we trim our GGM-based 2025 TP to THB186 (from THB192 previously), which implies 0.74x 2025E P/BV (COE of 10.0%, ROE of 8.2%). With an undemanding valuation at only 0.6x 2025E P/BV vs our ROE projection of around 9% by 2026 (vs KBANK's double-digit ROE target in 2026), we believe KBANK provides an attractive share price upside to investors. With this report, we transfer coverage of KBANK to Nathapol Pongsukcharoenkul.

Exhibit 5: 2025: KBANK's key targets vs FSSIA's estimates

Consolidated	2024A	2025E KBANK's targets	2025E FSSIA	Comments
NIM	3.70%	3.3-3.5%	3.58%	Based on one policy interest rate cut in 2025E.
Loan growth	0.57%	flat	1.10%	Focus on quality and secured loans.
Net fee income growth	6.73%	Mid to high-single digit	6.7%	Driven by wealth management and asset management business. We expect gradual improvement in bancassurance business after peak of high underwriting expenses.
Cost-to-income	44.09%	Low to mid-40s	44.48%	
Credit cost	1.89%	1.4-1.6%	1.68%	Major improvement after active balance sheet cleanup since 2022 (with credit cost 1.9-2.1% p.a. in that time).
NPL ratio (Exclude interbank loans)	3.71%	Up to 3.8%	3.79%	

Sources: KBANK, FSSIA estimates

SCB X (SCB TB) - Asset quality remains uncertain; Maintain HOLD TP THB130.00

High dividend but asset quality has issues

Despite a high dividend payout ratio of 80% for 2025-27E and ROE up to 9.9%, we are concerned about SCB's asset quality with a higher NPL ratio and higher NPL formation rate in 4Q24. With this overhang issue, we expect SCB's credit cost for 2025 to be 164bp vs SCB's target of 150-170bp and 176bp in 2024. Sensitivity-wise, for every 10bp increase in credit cost, SCB's 2025E net profit would drop 5.2%, all else being equal.

Conservative stance for retail loans

As of 4Q24, retail loans such as housing, auto HP, unsecured loans and title loans contributed around 50% of SCB's total loans – a considerably high proportion compared to peers. However, SCB EIC (Economic Intelligence Center) sees the recently lower household debt-to-GDP ratio or deleveraging progress as mainly coming from low nominal GDP growth. This will push more difficulties to private consumption and weaken domestic demand further, we believe. Thus, SCB has targeted loan growth of only 1-3% in 2025 (vs FSSIA's estimate of 1%) to reflect the conservative stance, especially on the retail loan segment.

Alarming signs from higher NPLs and NPL formation rate

In 4Q24, SCB was the only bank under our coverage that recorded a higher NPL formation rate vs peers' stable or lower-trending NPL formation rate. This could be a concerning sign for SCB's asset quality outlook in 2025, in our view, coupled with the 'unhealthy' household debt deleveraging progress. In detail, our key concerns are corporate loans and mortgages, which are collateralized loans. This would prolong NPLs in the balance sheet, as it requires a long process of litigation and legal execution for cash collection or debt settlement.

Raised forecast by 6-7%; maintain HOLD with a TP of THB130

We have raised our 2025-26 forecast by 6-7% on the back of 1) lower loan loss provisions to 164bp from 190bp; and 2) lower OPEX and better profitability after the divestment of 'Purple Venture' or the Robinhood application, which generated a loss of around THB2b per year. We raise our GGM-based 2025 TP to THB130 (from THB112 previously), which implies 0.88x P/BV (COE: 10%, ROE: 9%). With the concerns over asset quality and OPEX overrun vs the high dividend yield of c9%, our HOLD rating for SCB is justified, we think. With this report, we transfer coverage of SCB to Nathapol Pongsukcharoenkul.

Exhibit 6: 2025-26 earnings revisions

ICHITAN GROUP (ICHI TB) - Key highlights are OEM and NPD; Upgrade to BUY TP THB16.00

Key growth drivers come from non-tea and OEM

ICHI set its 2025 revenue target at THB9.5b (+10.5% y-y), with tea segment growth at 5.5% y-y, non-tea growth at 17.2% y-y, and strong OEM growth at 7.7x y-y. This year's highlight is set to be the recovery of OEM customers, with the return of an existing customer, the If brand, which will resume orders in March 2025. The company guided that 2025 OEM revenue would recover to THB400m from THB52m in 2024, while its customer has secured coconut raw materials. Aside from that, there is a new customer, TKN, which will start production in 2Q25.

Launching new product to conquer the market

For the RTD green tea market in 2025, management expects growth of c3-7% y-y, in line with our view that growth should slow after a strong 15.8% CAGR over the past three years. However, ICHI plans to outperform the market by introducing more new flavors and a new 1-liter size, which will be available at 7-Eleven starting in April. Aside from that, the company recently launched Tan Power energy drinks, available in Lotus and Makro, and is set to launch in 7-Eleven in May.

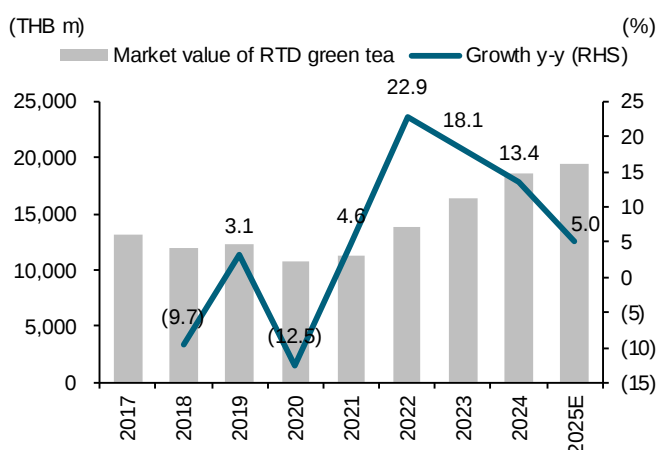

Hot weather and OEM to support the recovery

ICHI targets a 2025 gross margin of 25.7%, close to the 2024 level, despite operating a new production line starting in mid-February, which will increase depreciation by THB30m/year (impacting the gross margin by 0.3%). However, raw material costs have decreased, with plastic prices down by 3-5% y-y and sugar prices down by 7-8% y-y. In the short term, January-February revenue may slow slightly y-y due to cooler weather, which could result in 1Q25 profit being flat or slightly down y-y. However, in March, the weather began to warm up, and the company has begun recognizing OEM revenue of THB50m, with an additional THB180m in 2Q25. Therefore, we expect the net profit to recover in 2Q25.

Upgrade to BUY with the same TP of THB16

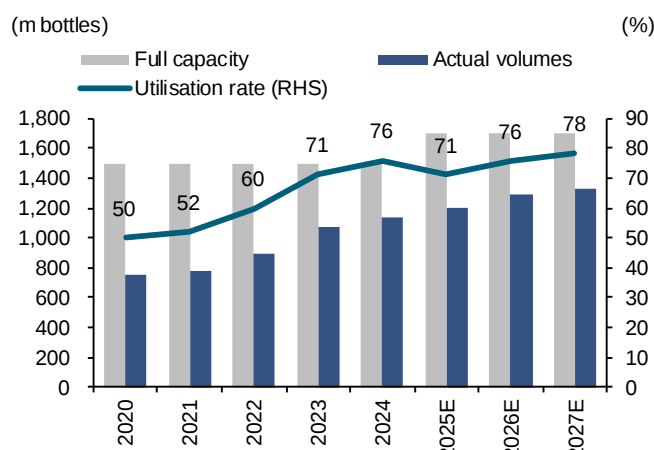

We maintain our 2025E net profit at THB1.39b (+6% y-y). The land sale plan is expected to be completed and may realize a profit in 2Q-3Q25, with the buyer already starting construction of the factory. The share price has fallen by 20% over the past four months and is trading at a P/E of only 12x. The 2H24 DPS is THB0.5/shr (yield 4%), with the XD date on 7 March, and we expect a 2025 dividend yield of 9% (excluding profits from land sales).

NSL FOODS (NSL TB) - Key takeaways from analyst meeting; Maintain BUY TP THB43.00

Highlights

- Management targets 2025 revenue growth of 16-17% y-y to THB6.8b. In the short term, 2MTD total revenue is still growing in line with the target. They also aim to maintain the gross margin and net profit margin at levels not lower than in 2024, which were 20.7% and 9.3%, respectively.
- Key growth drivers should come from 1) the expansion of 7-Eleven outlets; 2) new product launches under customer brands, the NSL brand, and BAW brand; and 3) the food service business, which recently began operating a new factory in Samut Prakan. This facility started producing new products like beef balls, tendon balls, and sun-dried beef for new customers, Nuatair, as well as other processed products expanding to new clients like Zen, MK, Eat Am Are, Sukishi, Salad Factory, Wine Connection, and various hotels. Currently, food service revenue accounts for 5.2% of total revenue, with significant growth expected this year.
- Inno Foods, a cheese production factory that started operating in 4Q24, reported a slight loss. However, management aims to break even and generate a profit this year, after launching new products for external customers and for NSL itself, which will be used to produce new NSL products. This is expected to increase from 2Q25 onward.
- As for the coconut water/fruit juice export segment, NSL will fully consolidate revenue for the whole year. Management mentioned that the focus will be on expanding export products and managing raw material costs. However, this segment still accounts for a small portion of total revenue, only 2-3%. Going forward, NSL's own products will be sold more through this channel. Recently, Rice Bar has been sent for sale in the UK market.

Comments

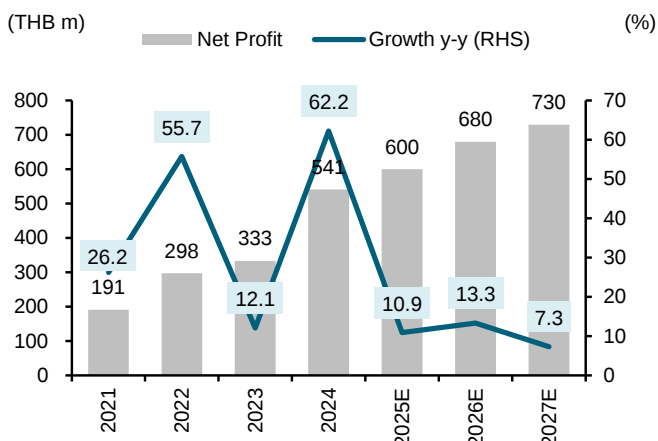

- We maintain our 2025E net profit of THB600m, with revenue growth at 14% y-y and a gross margin of 20.3%. Our assumptions are conservative compared to NSL's targets.
- If we follow management's targets, the net profit for 2025 would be cTHB632m (+17% y-y). Meanwhile, the share price is trading at a 2025E P/E ratio of only 14x.

Key takeaways from Analyst Meeting

OSP (BUY, TP THB24) - So far, everything is in line with the plan. The situation should become clearer by 2Q25.

Highlights

- Management targets 2025 total revenue growth of 5-8% y-y. Key drivers are; 1) personal care growing at a double-digit rate; 2) overseas growth at a double-digit rate; and 3) domestic beverages targeting 5% y-y.
- For domestic energy drinks, OSP aims for 3-5% y-y growth, with a target to increase the market share by 2-5% by the end of 2025, up from 45.8% at the end of 2024. The market share target for THB10 product is to double from 10% in 2024, while the market share for THB12 product may slightly decline from 35% in 2024.
- They provided that 1QTD domestic energy drink revenue (sales in) is slightly down y-y due to stock management, but sales out at stores are still growing well. However, there has been some cannibalization, especially with M150-blue (THB10) and destocking of M150-gold cap (THB12). Overall, the situation is still going according to plan, with market share in January improving by 20bps m-m.
- Currently, OSP has fully distributed M150-yellow cap (THB10) to major agents (100%) and more than 50% to smaller retail stores. By the end of March, distribution is expected to exceed 80%.
- The company targets a stable gross margin for 2025 at 37.3%, even though raw material prices have been locked in at a lower cost. The margin will be pressured by product mix. They also target 2025 SG&A to sales will stable at 24%, close to 2024 (excluding extra items in 2024).

Comments

- In the short term, we expect 1Q25 net profit to grow q-q and slightly decline y-y. Although domestic energy drink revenue may weaken y-y, other businesses are performing well, especially in overseas revenue entering high season and personal care, which will continue to grow y-y.
- So far, both the strategy and figures are relatively stable. We still need to monitor market share and profit trends.
- We have more positive view on domestic energy drink target, which is not overly aggressive. Revenue growth is expected to be modest, while gross margin will decrease because THB10 product has a lower margin than THB12 product. However, gross profit in absolute terms is expected to still grow.
- The significant drop in share price reflects concerns that the 2025 strategy may not succeed as expected. While we still need to monitor the results, the share price is currently trading at a PE of 16x, which looks attractive for long-term investment.

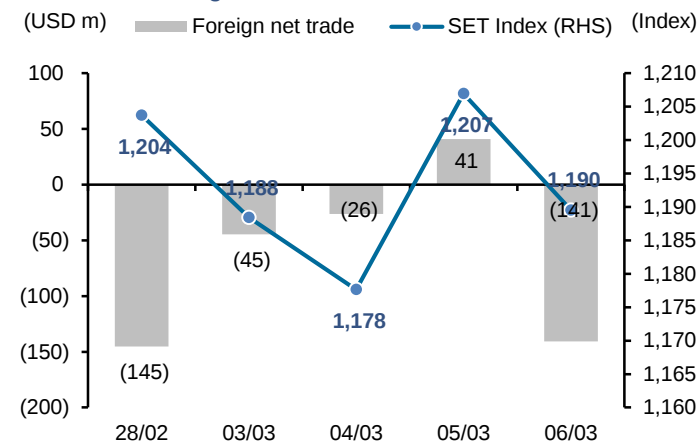

Economic news

- [Oil auctions herald new Thai supplies](#) BANGKOK POST: Authorities are hopeful for the development of nine new petroleum fields to increase long-term energy supply in Thailand, following an official invitation for investors to apply for an auction for onshore petroleum exploration and production licences. Not only will Thailand have an opportunity to produce more petroleum, but the country is also expected to generate 2 billion baht in investment value during the exploration period, said Warakorn Brahmopala, director-general of the Department of Mineral Fuels. The department yesterday opened a data room at the Energy Ministry to serve energy companies interested in new onshore petroleum exploration and production in the northeast and central regions. Companies can obtain information about the nine targeted areas, spanning 33,444.64 square kilometres, before making a decision on the investment. Six to seven companies have shown interest in searching information in the data room, said Mr Warakorn. Officials are pushing ahead with the Round 25 auction, the first to be held in 17 years. Seven of the nine areas are located in the northeastern provinces of Nong Bua Lam Phu, Udon Thani, Khon Kaen, Sakon Nakhon, Kalasin, Maha Sarakham, Yasothon, Amnat Charoen, Chaiyaphum, Nakhon Ratchasima, Buri Ram, Roi Et and Surin. The two remaining blocks are in Phetchabun, Lop Buri, Ratchaburi, Kanchanaburi, Nakhon Pathom and Suphan Buri in the central plains.
- [Credit card firms plead for low rate](#) BANGKOK POST: The Credit Card Club of the Thai Bankers' Association is urging the Bank of Thailand to extend the current minimum payment rate for credit cards until next year. According to Atis Ruchirawat, president of the club, it is planning a discussion with the central bank next month to request the minimum payment remain at of 8%. Previously business operators unofficially raised the issue with the central bank, he said. The central bank previously reduced the minimum payment to 8% to ease the financial burden on borrowers amid the sluggish economy. However, the regulator is scheduled to increase the rate back to the normal level of 10% next year. Mr Atis said the credit card industry's non-performing loan (NPL) rate stabilised after the minimum rate was adjusted. Given the fragile economy, an increase in the rate could negatively impact the ability of credit cardholders to repay their debts, he said. According to club data, the industry's NPL rate was 2.6% at the end of last year. For 2024, there were 26 million credit cards in circulation, down by 0.9% year-on-year. Credit card spending grew by 4.6% for the period, totalling 2.74 trillion baht.
- [Private sector calls for tariff team](#) BANGKOK POST: The Thai Chamber of Commerce is calling on the government to create a war room to tackle tariff threats by the Trump administration. The private sector is concerned such tariffs could significantly affect Thailand's economy, depressing growth to less than 3%. Sanan Angubolkul, chairman of the chamber and the Thai Board of Trade, said the private sector is requesting the government form a special team led by the prime minister with representatives from both the public and private sectors to develop proactive strategies in response to drastic changes in US trade policy. US import tariffs are expected to force many countries to shift to new markets, particularly Southeast Asia, especially for electronic products, electrical appliances, automobiles, industrial goods, consumer products, and agricultural and food products.
- [Trump delays auto tariffs on Canada and Mexico](#) BANGKOK POST: US President Donald Trump's 25% tariffs on Canada and Mexico have sent the US auto industry scrambling to plan for the massive tax on some of America's best-selling vehicles, including full-sized pickup trucks, while pinning their hopes on a potential deal in Washington. Hours after the tariffs went into effect, the White House threw the industry a lifeline, saying many North American-built vehicles would be exempt if they already followed the complex rules of origin under the 2020 US-Mexico-Canada Agreement (USMCA), enacted during Trump's first term. "We are going to give a one-month exemption on any autos coming through USMCA ... so they are not at a disadvantage," White House press secretary Karoline Leavitt told reporters Wednesday. "Reciprocal tariffs will still go into effect on April 2." Trump raised the idea of a 30-day pause on USMCA-compliant vehicles in return for expanding production in the US during a call on Tuesday with General Motors CEO Mary Barra, Ford CEO Jim Farley, Ford executive chairman Bill Ford Jr and Stellantis chairman John Elkann, Reuters reported earlier. Automakers have expressed support for boosting US investment but want certainty over tariff policies as well as vehicle emissions rules before making dramatic changes, two industry sources said.
- [Thai business leaders propose trade 'war room'](#) BANGKOK POST: The Thai Chamber of Commerce on Thursday urged action from the government over US trade policy uncertainty, and proposed creating a "war room" to head off any threat of tariffs by the Trump administration. The chamber said members' "panic" over US trade policy was justified and Thailand must urgently review its import taxes on US goods and increase imports to reduce its trade surplus with Washington amid rising global trade disputes. "Today, if asked if we are panicking about the US, we must be panicking because they are our number one export market," chamber vice-chairman Poj Aramwattananont told a press conference. "Time is very short. If we don't hurry up and don't respond officially to what is happening, we will run into problems. We have to be prepared and respond in a way that is fair to all parties." US President Donald Trump last month signed a broad trade memorandum ordering federal agencies to complete comprehensive reviews of a range of trade issues by April 1, including analyses of persistent US trade deficits. Trump has proposed imposing reciprocal tariffs on countries that have large surpluses with the US, starting on April 2. Thailand could face trouble as it charges an average 8.2% tariff on US goods compared with 2.4% charged on Thai goods by the US. The United States was Thailand's largest export market last year, accounting for 18.3% of total shipments, or \$54.96 billion. Thailand had a trade surplus last year of \$35.4 billion with the United States, according to the commerce ministry, which has cited challenges to growing Thai exports due to uncertain US trade policies.

Corporate news

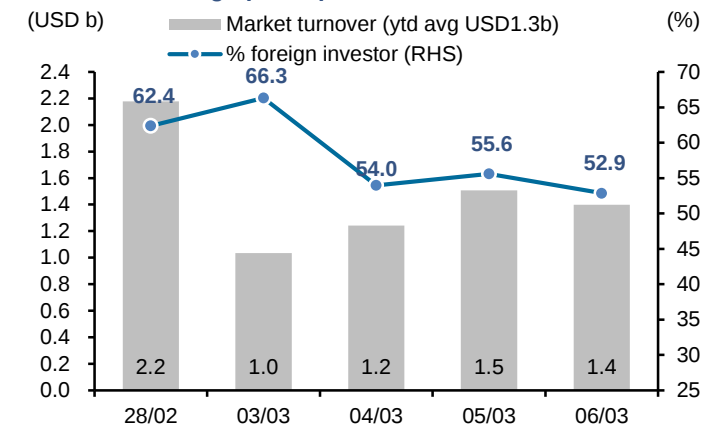

- [Thailand terminal to be expanded for US ethane imports](#) BANGKOK POST: The global storage operator Vopak has announced plans to expand its joint-venture terminal in Thailand to handle ethane imports from the United States for PTT Global Chemical Plc (PTTGC) from 2029. Petrochemical firms across Asia, led by China, are planning to ramp up imports of cheaper ethane flowing from the US shale gas boom to diversify raw material supply and lower costs. Thai Tank Terminal — a joint venture between PTTGC, Gulf Energy Development and Vopak — will construct 160,000 cubic metres of tank storage in Map Ta Phut, Rayong, Netherlands-based Vopak said on Thursday. The joint venture, which provides storage and logistics infrastructure for liquid chemicals and gases, has also signed a 15-year contract with PTTGC for the storage and handling of ethane in Thailand. The project is part of Vopak's investment strategy in the country to allocate 130 million euros over the next four years related to storage and other infrastructure in the Map Ta Phut area. Separately, PTT on Wednesday long-term charters for two very large ethane carriers with the Malaysian shipping firm MISC. The vessels will be constructed by HD Hyundai Heavy Industries and are scheduled for delivery by the end of 2028, MISC said in a statement.
- [Estate offers trade war escape](#) BANGKOK POST: SET-listed Amata VN, a developer of industrial estates in Vietnam, is preparing to spend US\$15-20 million to develop a new industrial estate in Vietnam to serve investors from China seeking to avoid the impact of the trade war. The new industrial park is expected to be a destination for companies considering relocating their production facilities or wishing to expand into Southeast Asia. "We expect the Vietnamese government to grant a licence for the construction of the new industrial estate," said Somhatai Panichewa, chief executive of Amata VN. The company plans to build the industrial estate on a 3,000 rai plot of land, roughly equivalent to 500 hectares, this year. Mrs Somhatai believes the new industrial estate will attract investors from China, especially those in the semiconductor and electronic industries. These entrepreneurs are worried about the impact of the trade war and want to relocate their production facilities elsewhere. A renewed trade war erupted after US President Donald Trump announced he would impose a 25% tariff on products from Canada and Mexico and increase import taxes from 10% to 20% on goods exported from China to the US, according to media reports.
- [SCB WEALTH Unveils "Your Success. Our Success." Proposition](#) BANGKOK POST: Siam Commercial Bank (SCB) is reinforcing its Digital Bank with a Human Touch strategy with the launch of SCB WEALTH's new proposition, "Your Success. Our Success." The initiative aims to establish SCB as Thailand's leading holistic wealth management bank by 2026, focusing on customer-centric solutions, hyper-personalisation, and global investment opportunities. SCB WEALTH is committed to reshaping the wealth management experience through three core strategies. Customer Centricity remains a top priority, ensuring that financial, investment, and wealth solutions align with the needs of individuals at every stage of their lives. This includes innovative approaches such as the "No Gain, No Pay" model, which exempts investors from management fees if their investment goals are not met—an initiative featuring the "No Gain. No Pay" logo that has gained widespread customer approval since its 2024 launch. Additionally, the introduction of Capital-Protected Funds provides a low-risk option designed to safeguard capital while delivering higher returns than traditional financial instruments, with sales nearing 100 billion baht last year. The second pillar of SCB WEALTH's strategy is Hyper-Personalisation, combining expert insights with AI-driven analytics and digital innovation. This ensures bespoke financial solutions tailored to each client's unique investment goals. The seamless integration of advanced technology with personalised service provides a streamlined and efficient wealth management experience.
