Published Reports

BANGKOK COMMERCIAL ASSET MNGT. (BAM TB) - Higher recurring collection base; Upgrade to BUY TP THB8.40

High base case with big-ticket upside

During the meeting, management guided to a 2026 base case collection target of THB17.9b (NPL THB10.5b, NPA THB7.4b), excluding big-ticket items. In our view, the target is demanding given 2025 collections at cTHB17.9b (with cTHB4.25b big-ticket support), but is feasible under improvement in execution across the recurring smaller-ticket channels such as SME FA center, 'Asset for all' program, and multiple MOU-led NPA partnerships. Separately, management flagged two potential big-ticket contributions totaling THB2.0-2.8b in 2026. Lastly, BAM target an investment of THB5.0b on cost basis (up from THB2.2b actual in 2025).

Support from lower ECL and cost of funds in 2026

We expect a lighter provisioning burden in 2026, supported by lower ECL (ex. accrued interest) following an elevated 2025 base and improved NPA management as BAM plans to accelerate the clearance of older legacy NPAs. BAM has also been engaging auditors to refine ECL methodology for newly acquired NPLs, especially the near full provisioning on accrued interest at inception, given BAM's stronger collection capability. On funding costs, management guided to c20bp savings in 2026, which should provide a direct tailwind to earnings.

Revise our 2026-28 forecasts

We revise up our net profit forecast for 2026-28 by 9-26% and now project an average CAGR of 12%. The upgrade is driven by a higher collection base to THB17.9-18.5b (ex. big-ticket collections) as management's initiatives broaden recurring collection channels, alongside lower cost of funds (3.22% in 2026-28E vs 2025: 3.47%). Meanwhile, we expect total ECL expenses to increase in tandem with increased investments, while we expect ECL for other exceptional items to decline significantly. Hence, we model ECL of THB4.55-6.76b alongside investment of THB5.0-9.5b for 2026-28.

Upgrade BAM to BUY with a TP of THB8.40

We upgrade BAM to BUY with a new TP of THB8.40. The stock is currently trading at only 0.5x P/BV, below its five-year average of 0.9x, while offering an attractive dividend yield of 6-7% p.a. Our 2026 GGM-based TP reference a target P/BV of 0.59x (sustainable ROE of 6.5% and COE of 10.2%). With this report, we transfer BAM coverage to Usanee Liurut.

SRISAWAD CORP (SAWAD TB) - Resuming loan expansion in 2026; Maintain BUY TP THB35.00

Positioned for aggressive loan growth on easing funding costs

SAWAD targets 2026 loan growth of 10–15% y-y (vs our forecast of 12.2% y-y), with acceleration expected in 2H26 in line with normal seasonality. Growth will mainly come from title loans, which have shown a recovery since 2Q25 after contracting during 3Q24–1Q25, as the company previously prioritized liquidity preservation for bond repayments over growth. Key contributors include car title loans (25% of total loans) and land title loans (30%). Meanwhile, motorcycle hire purchase loans (25% of total loans, via SCAP) should see a much smaller contraction compared to 2025 (-28.8% y-y). Another key factor supporting loan growth is the more favorable bond market environment. The company recently received strong demand for its upcoming THB6b bond issuance, with an average funding cost of 2.85%, down c100bps from November 2025. The lower issuance cost will help ease 2026 funding costs. In 2026, total debentures maturing amount to THB16.3b (SAWAD: THB13.1b; SCAP: THB3.24b). Based on our assumption that the company will issue THB21b in new debentures in 2026, we forecast the average cost of funds to decline by 22bps y-y to 4.23% in 2026.

Credit costs set to decline in 2026

SAWAD sees potential for credit costs to decline to 180bps in 2026 from 214bps in 2025. It explained that the heavy write-offs in 4Q25 mainly related to SCAP's motorcycle hire purchase portfolio. As a result, it expects write-offs in the motorcycle hire purchase portfolio to decline by around 20% in 2026, which should help ease credit cost pressure (with SCAP accounting for 70% of 2025 group's credit costs).

2026–28 earnings projected to grow at a 10.5% CAGR

We slightly raise our 2026–27 net profit forecasts by 1.2-1.4% to reflect the updated 2026 business targets. As a result, we project 2026–28 net profit to grow at a 10.5% CAGR, driven by more aggressive loan growth, lower credit costs in 2026, and stable credit costs in 2027–28 as SCAP's write-off burden eases. We also factor in an improving cost-to-income ratio, reflecting SCAP's decline in losses from repossessed car sales.

Maintain BUY with a 2026 TP of THB35

We maintain our BUY recommendation, with a 2026 target price of THB35 based on the GGM, implying a 1.28x P/BV (down from 1.32x), a revised LT-ROE of 13.9% (down from 14.3% to reflect the lower-than-expected 2025 payout ratio), and a COE of 12%.

CHAROEN POKPHAND FOODS (CPF TB) - Meat Prices Bottoming Out; Maintain BUY TP THB24.00

2026 growth target maintained despite high base

Management maintains its 2026 growth target despite a high base in 2025. Revenue is expected to grow slightly y-y, supported by 5–8% volume growth, especially in Vietnam, where both swine and chicken capacity are expanding and chicken exports have started. Gross margin is expected to stay close to the 2025 level (16.9%), supported by; 1) stable to slightly lower raw material costs y-y, and 2) a stronger focus on higher-margin value-added products to reduce earnings volatility.

Meat prices likely past the trough, except China

Meat prices appear to have passed the bottom in most markets, with Chinese swine the only exception. Thai swine (farm-gate swine price) has increased by THB4–8/kg to THB58–62/kg since late February–early March after supply control measures were reinstated. Market prices remain at THB54/kg but are likely to move up. Chicken prices rose to THB40/kg from THB37/kg in 4Q25. Vietnam swine prices improved to VND68,000–70,000/kg in 1Q26. China swine prices, however, remain below CNY11/kg, which is below breakeven costs. Management expects a recovery in 2H26 as earlier breeder herd cuts start to take effect.

Earnings downgrade on slower China recovery

We cut our 2026E net profit by 12% to THB17.8b (-29.3% y-y), mainly due to a lower China swine price assumption of CNY13/kg (from CNY15/kg) and a 20 bps cut in gross margin. The issue of US corn imports remains under discussion by the new government. The company plans to increase its debenture limit to THB200b (from THB150b) to improve refinancing flexibility at lower interest costs. The listing of CP Vietnam on the Vietnam stock exchange remains on track and is expected by year-end.

Target price cut; maintain BUY

We lower our TP to THB24, based on PE 12x. The company exports chicken to global fast-food chains in the Middle East, but the revenue contribution is small at THB30m/month (0.06% of total revenue). A bigger risk comes from higher oil prices. Transportation expenses account for about 3% of total revenue. A 10% increase in freight costs would reduce earnings by 7% and lower our TP by THB1.7/shr. However, meat is a basic consumer product, and demand is usually more stable than for other goods. During past oil price spikes (2008 and 2012–13), CPF remained profitable.

CARABAO GROUP (CBG TB) - A More Challenging Year Ahead; Downgrade to HOLD TP THB43.00

Targeting strong growth in 2026 despite weak Cambodia outlook

Management targets 20% y-y revenue growth in 2026, led by domestic sales (+20% y-y), including energy drinks (+20%), spirits (+30%), and beer (+200%). Revenue from existing overseas markets is expected to remain broadly flat. Target growth in Myanmar (+20%) and Vietnam (+10%) may be offset by continued weakness in Cambodia, while new markets such as China are expected to support expansion. In Afghanistan, the company is shifting to a concentrate model with local production, replacing exports of finished goods from Thailand. In Thailand, management aims to lift energy drink market share to 32% by end-2026 (from 28.2% in Dec 2025).

Cambodia recovery remains uncertain

Management has shared limited details on Cambodia due to competitive sensitivity. We believe a recovery will be difficult, as Thailand's energy drink exports to Cambodia fell sharply to USD0.09m (THB3m) in 4Q25 from USD30.9m in 4Q24. We are monitoring contract manufacturing revenue from the new Cambodia plant, which began operations in late December and is no longer reflected in Thailand's export data.

1Q26 core profit to decline; recovery expected in 2H26

We expect 1Q26 core profit to decline both q-q and y-y due to seasonality and weaker domestic sales. The y-y drop mainly reflects the loss of Cambodia revenue. Although the company secured aluminum can OEM orders to support capacity use, margins are lower than branded products and unlikely to fully offset weaker overseas sales. Revenue exposure to the Middle East is limited at 1.7% of total sales.

Earnings cut and downgrade to HOLD

We cut our 2026E core profit forecast by 9.4% to THB2.66b (-6.1% y-y), mainly due to lower Cambodia revenue (revised to THB300m from THB850m) and an 80bps reduction in gross margin to 25.3%. Our TP is reduced to THB43, based on 16x PE. Risks remain if Cambodia or domestic sales fall short of expectations. If Cambodia revenue drops to zero, earnings could decline by another 2–3%. Higher oil and gas prices are also a risk; every 10% increase in energy prices would reduce earnings by about 4.5% and cut our TP by THB2. We see 2026 as another challenging year for CBG with several uncertainties ahead and downgrade our rating to HOLD.

STECON GROUP (STECON TB) - Improved 2026 visibility with limited upside; Downgrade to HOLD TP THB13.00

2026 revenue growth target of 5–10% with GPM above 7%

STECON targets 2026 revenue of above THB35b, implying 5–10% y-y growth from THB33.5b in 2025, while maintaining GPM at above 7% (vs. 7.4% in 2025). SG&A is expected to be contained at 3.0–3.2% of sales (vs. 3.4% in 2025), supported by the adoption of AI technology through its new venture investment. Meanwhile, the company continues to expand its new business portfolio, with recurring revenue expected to ramp up from the water management business under Mars starting in 2Q25. In the data center segment, STECON expects to finalize two deals in 2026, while in renewable energy, it has 2–3 projects under discussion.

Higher new order target driven by public projects

STECON's backlog stood at THB96b as of end-2025. The company sets its 2026 new contract signing target at THB50b, up from THB40.2b in 2025, driven by an increase in government mega project tenders. Cabinet-approved projects are expected to gain traction in 2H26, including double-track railways, a high-speed railway, and motorway projects. STECON also sees private-sector projects with a combined value of THB53.7b, including data centers worth THB30.8b and commercial building projects totaling THB20b. Furthermore, the U-Tapao Airport project, currently pending approval from the new government, is expected to commence construction in 2026. The project is projected to add THB10b to backlog in 2026 and THB20–30b in 2027.

2026 earnings upgrade on special dividend and ECL reversal

We raise our 2026E net profit by 63% to THB1.74b (-11% y-y), primarily driven by: 1) the announced special dividend income from GULF, of which THB736m will be recorded in 2Q26; and 2) the recognition of the remaining reversal of allowance for expected credit losses (ECL) from UJV. STECON has reached a settlement agreement with the UJV consortium on debt repayment, securing recovery of around 86–87% of the fully provided THB1b doubtful accounts booked in 4Q24. The initial repayment of THB610m was recognized in 4Q25, while the remaining THB260–270m is expected to be recorded as an ECL reversal in 1Q26.

TP raised to THB13; HOLD on limited upside

We raise our TP to THB13 (from THB12), based on 1.1x P/BV (+1SD). However, the share price has surged 94% YTD, which we believe largely reflects improved political stability and positive financial drivers, leaving less than 10% upside to our TP. In the short term, 1Q26 net profit is expected to grow y-y on the ECL reversal but decline q-q from the high base in 4Q25. We therefore downgrade our rating from BUY to HOLD. Meanwhile, the majority of new backlog is skewed toward 2H26, in line with anticipated progress on public-sector projects.

SCGJWD LOGISTICS (SJWD TB) - Earnings momentum intact; Maintain BUY TP THB13.30

Record core profit driven by margin expansion

SJWD delivered record core profit of THB1.1b in 2025 (+41.4% y-y), exceeding the 2023 post-merger level by 20%. The strong performance was driven by transportation gross margin expansion (7.5% in 2023 to 9.0% in 2025), supported by solid growth in the warehouse and cold storage segments, as well as stronger overseas contributions following the consolidation of SCG Inter Vietnam.

Cost discipline and stronger associate contributions

A key driver of earnings growth in 2025 was improved cost efficiency. SG&A expenses declined 6.5% y-y, with the SG&A-to-revenue ratio improving from 9.1% in 2024 to 8.3%. In addition, share of profit from associates rose significantly from THB211.5m in 2023 to THB488.5m in 2025, reinforcing overall profit quality and earnings sustainability.

Expansion across all segments in 2026

Management targets expansion across all business segments in 2026. In the warehouse segment, SJWD secured a contract to provide warehouse management and nationwide distribution services for Bayer B.Grimm (Thailand). In freight, the company partnered with Asia Ground Service (a subsidiary of ILL) to integrate data systems and reduce paper-based documentation. The company also plans to expand cold storage facilities into Phitsanulok, Khon Kaen, and Malaysia. Additionally, Alpha will expand warehouse space by over 400,000 sqm and divest assets into a REIT, while strict SG&A control remains a key priority.

Earnings revisions; BUY maintained despite slight TP cut

We slightly revise our 2026–27 forecasts to align with the company's business plan, raising 2026–27 profit forecasts upward by 4.1% and 1.9%, respectively, mainly reflecting higher transportation margins, lower SG&A, and stronger associate contributions. We expect 2026 core profit to reach a new record of THB1.2b (+11.8% y-y) and increase further to THB1.4b in 2027 (+9.7% y-y). We lower our target price to THB13.30 (from THB14.00) after raising WACC to 10.4% (from 9.5%), implying 2026E P/E of 19x and EV/EBITDA of 10x. We maintain our BUY rating, supported by continued operational recovery.

AMATA CORPORATION (AMATA TB) - 4Q25 results at first glance; Maintain BUY TP THB21.00

Core profit beat by 15% on higher gross margin

Highlights

- AMATA reported a 4Q25 net profit of THB1.0b. Excluding FX gains, core profit came in at THB917.4m (-20.5% q-q, -6.1% y-y). Despite the q-q and y-y decline, earnings exceeded our estimate by 15%.
- The earnings beat was mainly driven by lower-than-expected development costs in Vietnam, amounting to THB215m. Previously, the company had included the construction cost of a six-lane road in its project development budget; however, the government later assumed responsibility for the road construction. This led to a temporary surge in Vietnam's industrial estate gross margin and lifted the blended gross margin (Thailand and Vietnam) to 63.4% in 4Q25 (vs. our estimate of 43.5%).
- Excluding this one-off impact, 4Q25 core profit would have been approximately THB827m, broadly in line with our forecast.
- In 4Q25, AMATA recorded land sales of 243 rai, bringing full-year 2025 sales to 1,233 rai, down from 3,018 rai in 2024. The figure fell short of the company's target due to delays in contract signings by customers.
- Land transfers in 4Q25 totaled 518 rai, bringing full-year 2025 transfers to 1,645 rai, down from 1,912 rai in 2024. However, a higher average selling price per rai in 4Q25 limited the q-q decline in industrial estate revenue to just 0.8%, though revenue fell 38.8% y-y, as land transfers in 2024 were heavily concentrated in 4Q24.
- AMATA reported a record-high 2025 core profit of THB3.3b (+30.0% y-y). Although land transfers were lower than the previous year, leading to a 3.3% y-y decline in industrial estate revenue, this was more than offset by a significant improvement in gross margin and lower interest expenses, which together supported the strong earnings growth.
- AMATA declared a 2H25 dividend of THB0.75 per share (4.1% yield), with an XD date of 5 May 2026. This brings the full-year dividend to THB1.10 per share, implying a yield of 6.0%.

Outlook

- We maintain our 2026 land transfer assumption at 1,600 rai, slightly lower than the previous year. We continue to forecast 2026 core profit at THB2.9b (-13.0% y-y), reflecting normalisation from a high base in 2025. We maintain our TP of THB21.00, based on 2026E P/E of 8.5x, and maintain our BUY rating, supported by an undemanding valuation at 7.3x P/E and 0.8x P/BV.

HOME PRODUCT CENTER (HMPRO TB) - Key takeaways from analyst meeting; Maintain HOLD TP THB7.70

Highlights

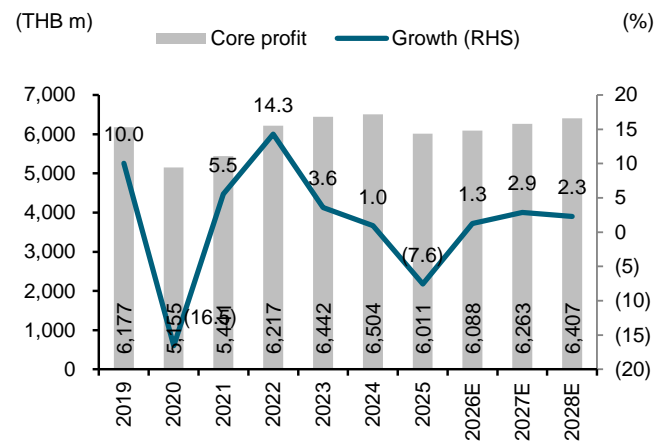

- Management still sees high uncertainty in 2026 for both domestic slowdown and external macro factors. The company financial targets for 2026 include: 1) SSS growth of +2–3% y-y, mainly from 2Q26 onward on a low-base effect, and 2) a focus on improving profitability, targeting +10–20 bps GPM expansion while keeping SG&A to be flat y-y.
- On store expansion, HMPRO plans to open 10 new stores in 2026, comprising 1 HomePro store and 9 hybrid-format stores. This would bring the total store count to 133 in 2026 (from 136 in 2025) with addition 3 new locations.
- The company targets private-brand sales contribution for HomePro and Mega Home at 22.0% and 22.5%, up from 21.4% and 21.8%, respectively.
- In the near term, HMPRO’s SSS in Jan and Feb 2026 was still down around -10% and -17.5% y-y, respectively, pressured by the absence of the easy e-receipt scheme in 1Q26. Mega Home’s SSS in Jan and Feb 26 declined 3% and 7% y-y, respectively.
- On capital management, the company expects to still maintain a payout ratio at a similar level of more than 80%. The latest initiative is a treasury stock program, to be executed during 1 Mar–31 Aug 2026.
- We expect 1Q26 earnings to continue contracting both y-y and q-q, pressured by weak SSS, while 2026 core profit is estimated to remain flattish on a y-y.
- In the near term, we foresee limited share price catalysts given the sluggish SSS recovery, and expect the stock to continue to underperform the sector.

Economic news

- [War to hobble supply chain as trade costs soar](#) BANGKOK POST: Thai business and industry leaders are concerned that the Mideast war could significantly disrupt logistics and transport costs, with ripple effects for manufacturing in Thailand and other countries. Kriengkrai Thiennukul, chairman of the The Federation of Thai Industries (FTI), said the war threatens to destabilise global supply chains by disrupting shipping routes through the Strait of Hormuz, one of the world's most critical maritime passages for oil and gas. He said war risk insurance premiums are expected to surge by 400-500% as tensions escalate, burdening international trade. Iran on Wednesday declared that it had seized "total control" of the Strait of Hormuz and would target any ships attempting to pass through it. Vessels from China and Russia are exempt, while ships from other nations, including Thailand, are advised to avoid the strait due to heightened risks, said Mr Kriengkrai.
- [IMF chief sees three key impacts from war](#) BANGKOK POST: The International Monetary Fund (IMF) has been closely monitoring the Middle East war, saying it is seeing three core channels of impact: on energy prices, market sentiment, and disruption in travel, tourism and trade. Beyond the Middle East region, these impacts spread across countries worldwide, with heightened uncertainties undermining confidence in the global community, IMF managing director Kristalina Georgieva said on Wednesday. "We need to closely monitor developments, in particular, how long the fighting would last and the severity of the conflict. Hopefully, a resolution can be reached soon," she said at a press conference on preparations for the 2026 annual meeting of the IMF and World Bank Group in October in Bangkok. The Bulgarian economist said that beyond Thailand, the whole global economy has faced challenges of a slower pace of growth since the end of the Covid-19 pandemic. On average, global GDP growth was in a range of 3.7% to 3.8% for the pre-pandemic period and has declined to around 3.3% in the post-pandemic period. The slower pace reflects the fact that productivity has not been growing fast enough, she said. Therefore, the IMF suggests countries deepen the availability of capital, especially through capital markets — in other words, equity investments rather than loans from banks.
- [Thai stock market recovers after trading halt](#) BANGKOK POST: The war-induced sell-off in global stocks continued on Wednesday, with the Stock Exchange of Thailand (SET) having to halt trading at one point to allow nervous investors to take a breather. The SET Index ended the day down 81.90 points (5.3%) at 1,384.61, with heavy turnover of 159 billion baht — about three times the normal average. The index has now lost 9.4% since the close last Friday, shortly before Israel and the US launched their attacks on Iran. On a day when local institutions (5.4 billion baht) and brokers (9.5 billion baht) were net sellers of Thai shares, bargain-hunting foreign investors were net buyers of just over 1 billion baht. Retail investors were also net buyers of 13.9 billion baht on Wednesday. The day also featured a trading halt on the SET, mai and Thailand Futures Exchange (TFEX) at 12.18pm, when the SET index plunged 117.52 points. A decline of 8% automatically triggers the first level of a circuit breaker on the local market. Trade resumed at 2.30pm with a modest recovery. Products based on underlying assets other than SET common stocks were traded as normal. All brokers were temporarily prohibited from using program trading from the resumption of trading until the market close on Wednesday.
- [Local fuel prices capped for 15 days](#) BANGKOK POST: Prime Minister Anutin Charnvirakul said on Wednesday that people do not need to stockpile fuel as prices would be capped for the next 15 days. He made the comment after the Ministry of Energy announced that it would use the Oil Fuel Fund to hold diesel and petrol prices steady amid rising global oil prices due to the Middle East war. Energy Minister Auttapol Rerkpiboon said the decision was made just before midnight on Tuesday. It followed an earlier order by Mr Anutin to freeze the diesel price at 29.94 baht a litre for 15 days. The Oil Fuel Fund board said that subsidies would also cover petrol prices to keep them at the current levels, according to Mr Auttapol. Gasohol 91 is currently priced at 30.18 baht per litre and gasohol 95 at 30.55 baht.
- [Thai business group keeps 2026 GDP growth forecast at 1.6% to 2.0%](#) BANGKOK POST: A leading business group maintained its forecast for Thailand's economic growth this year at 1.6% to 2.0%, but said on Wednesday a prolonged conflict in the Middle East would hit activity. The group's forecast for exports, a key driver of Thai growth, was kept at a fall of 0.5% to 1.5%, the Joint Standing Committee on Commerce, Industry and Banking (JSCCIB) reported. Southeast Asia's second-largest economy, which has lagged regional peers since the coronavirus 2019 (Covid-19) pandemic, expanded 2.4% last year, with exports up 12.9% as concerns over US tariffs drove front-loading. According to Bank of Thailand governor Vitai Ratanakorn, the new war in the Middle East could dent gross domestic product (GDP) by 0.1-0.15 percentage points due to the heightened risk to oil supply.
- [Gold advances as dip-buyers enter market despite dollar strength](#) BANGKOK POST: Gold rose, erasing some of the losses in the previous session, as dip-buyers entered a market fraught with risk on the fifth day of war in the Middle East. Bullion climbed as much as 2%, clawing back some ground after a four-day winning streak ended Tuesday. Traders are balancing gold's risk premium against a stronger dollar, with a gauge of the US currency rallying 1.4% this week. Bond yields advanced and surging energy prices heightened the risk of widespread inflation. That prompted traders to scale back bets on monetary easing, while a broad selloff across equities on Tuesday forced some investors to liquidate their positions to meet margin calls elsewhere in their portfolios. The gold market is experiencing a standard "portfolio risk-reduction move," said Peter Kinsella, global head of forex strategy at Union Bancaire Privee, UBP SA. "It's entirely consistent with what we have seen in previous conflicts." Underscoring a sharp pullback in bullish bets, money managers' net long position in gold has fallen since late January to approach the lowest in a decade, according to data from the Commodity Futures Trading Commission. That relatively low level "should limit the extent of any down move" in gold, said Kinsella.

Corporate news

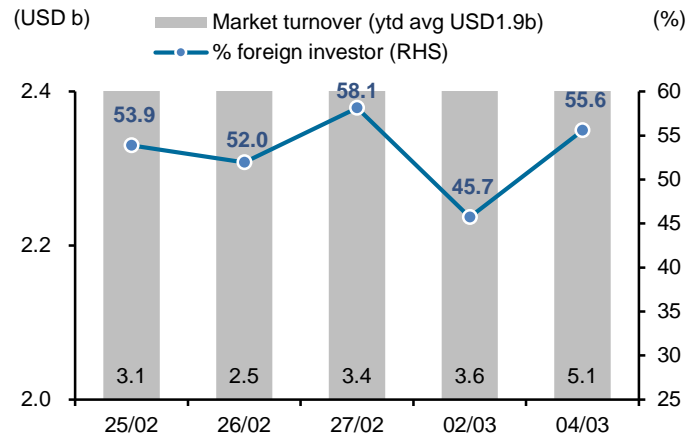

- [Pruksa continues scaling back launches this year](#) BANGKOK POST: SET-listed developer Pruksa Holding continues to scale back new residential launches this year, planning only seven projects worth a combined 8.2 billion baht as it shifts focus to clearing unsold inventory worth 66 billion baht and expanding recurring-income assets. Pattama Piyamaneeporn, deputy group chief executive, said the strategy this year centres on optimising assets, building recurring income, accelerating asset utilisation, clearing unsold stock to improve its cash position and strengthening cash flow management. "We have continued reshaping our portfolio since the second half of last year," she said. "We are in a transition phase, focusing on refining our core business and divesting non-core assets." The seven new projects worth 8.2 billion baht mark the company's lowest annual launch, both in terms of number and value, on record.
